Please note:

Our pricing has remained the same as 2024 to help improve affordability.

However, this year there has been an additional cost added for children and young adults that wish to partake in outdoor activities. We have implemented a nominal fee of \$10 for outdoor education activities to ensure the timely return of consent and release forms, as well as to improve attendance. Due to high demand, we often experience waiting lists, resulting in some children missing out when others do not attend.

Additionally, Pioneers is reserved for Young Adults accommodation only. YA's are free to stay with family elsewhere and can participate in activities at Pioneers specifically for them.

We appreciate your understanding of these adjustments.
